About FPSB Ltd. and FPSB Programs in India

Financial Planning Standards Board Ltd. (FPSB) is the global standards setting body for financial planning and owner of the CFP^{CM}, CERTIFIED FINANCIAL PLANNER^{CM} and  marks outside the United States. FPSB is proud to offer FPSB's Risk and Estate Planning Specialist program, one of three pathway courses to CFP certification in India:

- FPSB® Investment Planning Specialist
- FPSB® Retirement and Tax Planning Specialist
- FPSB® Risk and Estate Planning Specialist

Each certification carries its own stand-alone coursework, exam and credential. Importantly the coursework required for FPSB's pathway certifications also fulfills part of the required education for CFP^{CM} certification in India.

Interested professionals can begin their journey toward CFP certifying by registering with FPSB to begin the coursework for any of the three pathway certifications (in any order). This guide will focus on the **FPSB Risk and Estate Planning Specialist** certification.

FPSB® Risk and Estate Planning Specialist Overview

Take Your Career to the Next Level

The FPSB® Risk and Estate Planning Specialist course prepares you to develop strategies to manage clients' financial exposure due to personal risk and to help clients preserve and distribute their accumulated assets.

The course teaches you to evaluate your clients' legal, tax, financial and insurance position, and the impacts of non-financial issues, to guide clients to conserve and transfer wealth consistent

with client goals. To be recognized by employers, clients and the public for your superior skills and knowledge in risk and estate planning, complete the roadmap below to obtain FPSB® Risk and Estate Planning Specialist certification in India.

Steps to Initial Certification

The requirements for FPSB Risk and Estate Planning Specialist certification are as follows:

1. Successfully complete the FPSB Ltd. **Ethics** Course.
2. Successfully complete FPSB's **education** modules for:
 - Risk Management
 - Estate Planning
3. Pass the FPSB Risk and Estate Planning Specialist **exam**, which aligns to the topics identified in the FPSB Risk and Estate Planning Specialist Competency Profile (Appendix A).
4. Complete your **certification application**, which includes your agreement to comply with FPSB Ltd.'s Code of Ethics and payment of an annual certification fee.

Criteria to Register

Candidates who are at least age 18 and have completed HSC/12th pass (Std XII/HSC) may register with FPSB and begin the FPSB Risk and Estate Planning Specialist education course (Please also see Q#21 of Appendix D: Frequently Asked Questions).

FPSB Registration should be at least 30 days prior to Exam Registration.

Period for Course Completion

Individuals must complete the FPSB Risk and Estate Planning Specialist certification program within three years of first registering with FPSB Ltd. and must renew their registration on an annual basis. After three years in the system, FPSB Ltd. will consider the registration invalid. Candidates should consider the feasibility of completing the program in this timeline before registering.

Module	Name and Description
Risk Management	The material in this course covers risk management and insurance. Upon completion of this course, candidates should have a good understanding of risk management need areas and ways to address them. Candidates should be able to evaluate existing insurance coverage and how it addresses the client's risk management needs. Finally, candidates should be able to develop various strategies to protect the client's financial wellbeing through appropriate risk management.
Estate Planning	In this module, candidates will learn about Estate planning and at how an individual wants to address the end of his or her life. Postmortem (i.e., after death) estate (property/wealth) distribution is a significant planning focus, but even that is not the sole estate planning target. Further, even though estate planning may prepare for the end of life, a lot of the planning and plan execution happens much earlier. More than the legalities of preparing a will, this module will also delve into the emotional intelligence piece and sensitivities around this topic.

FPSB Ltd. Educational Resources

FPSB Ltd. will provide program participants with digital textbooks, supplemental post-chapter practice quizzes, post-module exams and supplemental course materials through its online learning portal, MyFPSB*learning*. All FPSB Ltd. education materials are aligned to the FPSB Risk and Estate Planning Specialist learning objectives described in Appendix A. All candidates, regardless of education mode, are required to purchase these materials.

Education

Candidates may complete the FPSB Risk and Estate Planning Specialist education requirement and become eligible to sit for the certification exam in one of three ways:

1. Self-Paced Education

Candidates who register with FPSB and select “Self-Paced Learning” will receive a password for FPSB’s online learning portal, MyFPSB*learning*, where they can read and interact with FPSB’s various learning materials at their own speed and test their knowledge with quizzes and module tests to validate their learning experience. The self-paced education path may be most appealing to experienced investment professionals or self-starters who enjoy studying on their own schedule.

*Self-paced learners who do not pass all FPSB Risk and Estate Planning Specialist module exams after the two attempts will be asked to pursue the instructor-led path by enrolling with an Authorized Education Provider (AEP).

2. Instructor-Led Education

Candidates who want an immersive educational experience with hands-on learning and access to an FPSB Authorized Education Provider should register for “Instructor-Led Learning” when signing up with FPSB. FPSB Authorized Education Providers offer both classroom and online education experiences. When registering with FPSB, individuals who sign up for instructor-led education will be asked to select from amongst FPSB’s authorized providers, which are also listed on the [FPSB Ltd. website](#).

Candidates who opt for FPSB’s instructor-led education can expect to receive the below teaching hours per module.

FPSB Risk and Estate Planning Specialist Modules	Estimated Teaching Hours
Risk Management	25
Estate Planning	25
Minimum Hours of Education	50

3. Recognition of Prior Learning

Candidates who have already completed alternative coursework that covers the FPSB Risk and Estate Planning Specialist learning objectives may be eligible to have that coursework recognized by FPSB as meeting the education requirement without completing the FPSB Risk and Estate Planning Specialist course (either self-paced or instructor-led). Candidates wishing to have their prior learning recognized must submit satisfactory evidence that their prior coursework meets FPSB’s established learning objectives by holding any of the below qualifications or certifications. Candidates will be asked to select “Recognition of Prior Learning” when registering with FPSB and upload a copy of their current certificate in the MyFPSB*learning* platform.

Upon successful completion of the FPSB® Risk and Estate Planning Specialist education requirement, whether through instructor-led or self-paced education course or through recognition of prior learning, candidates will be able to sit for the FPSB® Risk and Estate Planning Specialist exam.

The exam assesses the level of knowledge, skill and ability needed to earn the FPSB Risk and Estate Planning Specialist credential, including the functions of collection, analysis and synthesis (detailed further below). Each question on the exam focuses primarily on a specific element of competency from the FPSB® Risk and Estate Planning Specialist Competency Profile (Appendix A) and may require integration across several competencies.

Exam Overview

- 75 multiple-choice questions (4 possible answer choices), of which a minimum of 65 questions are potentially scored and up to 10 questions are used to develop future exams.
- Computer-based testing format
- Duration - two hours
- Financial calculators permitted (data must be erased)
- There will be two possible marks: correct, with points allotted; or incorrect, for zero points. Candidates will not have points deducted (referred to as 'negative marking')

Exam Scoring

- The passing point on the FPSB® Risk and Estate Planning Specialist exam is set to a level that is what is required for competent practice. Once set, future exams are equated to this same level so that candidates who take the exam one month have the same opportunity to demonstrate their abilities as candidates who take the exam a different month. The level of ability is what is consistent. This means that even if one exam is harder than another, the equating process gives every candidate the same opportunity to pass.

Areas of Practice

The exam will test the following areas of practice, which are also described in more detail in the FPSB Risk and Estate Planning Specialist Competency Profile (Appendix A).

FPSB Risk and Estate Planning Specialist Areas of Practice	
<p>Risk Management - Global</p> <ul style="list-style-type: none"> • Principles of Risk Management • Risk Exposures • Introduction to Insurance • Insurance Company and Advisor Selection • Strategic Solutions 	<p>Estate Planning - Global</p> <ul style="list-style-type: none"> • Estate Planning Terminology • Estate Planning and Wealth • Distribution Goals • Estate Planning Process • Transfer During Life and at Death • Planning for Incapacity • Estate Planning Strategies

The FPSB® Risk and Estate Planning Specialist exam will test the knowledge, skills and abilities from the FPSB Risk and Estate Planning Specialist education modules in the below proportions. However, there will not be specific sections allocated to the modules. Instead, questions relating to each module will appear in no specific order throughout the exam.

Likewise, although the FPSB® Risk and Estate Planning Specialist textbooks draw a distinction between “global” and “India-specific” education content, exam questions will not be specifically identified as such, and will appear in no specific order throughout the exam.

Difficulty Levels

The FPSB Risk and Estate Planning Specialist certification exam is designed to assess knowledge, skills and abilities in the areas of collection, analysis and synthesis in approximately the following proportions:

<p>Collection: gathering information and identifying related facts by making required calculations and arranging client information for analysis. During the collection function, the core competency is to collect both the quantitative and qualitative information required to provide risk management and estate planning advice.</p>	<p>Analysis: considers issues, performs financial analysis and assesses the resulting information to be able to develop strategies for the client. This includes: (1) considering potential opportunities and constraints in developing strategies, and (2) assessing information to develop strategies.</p>	<p>Synthesis: integrates the information needed to develop and evaluate strategies to create a risk management and estate planning plan.</p>

Ongoing FPSB Risk and Estate Planning Specialist Certification Requirements

To maintain the right to use the FPSB Risk and Estate Planning Specialist credential, certification holders must maintain their professional skills, knowledge, and abilities through ongoing learning activities.

FPSB Ltd. requires FPSB Risk and Estate Planning Specialists to renew their certification annually. To remain certified as an FPSB Risk and Estate Planning Specialist certification holders must:

- ✓ Commit to adhere to FPSB Ltd.'s Code of Ethics and any applicable laws and regulations.
- ✓ Obtain at least five Continuing Professional Development (CPD) hours/points. All points must be completed before applying for renewal of certification. At least two CPD hours/points need to directly relate to FPSB Ltd.'s Code of Ethics.

FPSB Coursework as Continuing Professional Development

FPSB Risk and Estate Planning Specialists who pursue other Specialist courses are considered to have met their annual CPD requirement through the coursework for FPSB's other financial certifications – as proven by registration in the *FPSB Risk and Estate Planning Specialist*, *FPSB Investment Planning Specialist*, or CFP^{CM} certification programs.

Using your Badge and Certification Name Correctly

FPSB will post guidance on how to correctly identify yourself as an FPSB Risk and Estate Planning Specialist. All certification holders will be required to abide by the guidance as part of the FPSB Code of Ethics.

Appendix B. FPSB Certification Code of Ethics (for all FPSB certifications)

FPSB LTD. CODE OF ETHICS

Observing the highest ethical and professional standards allows professionals to serve the interests of clients and promote the profession for the benefit of society. As part of their commitment, professionals should provide appropriate disclosures and comply with ethical standards when delivering advice to clients. FPSB has incorporated ethical behavior and judgment, and compliance with ethical standards, into its global standards for professionals. To ensure these obligations are understood, FPSB incorporates ethical standards into its certification requirements.

FPSB's Code of Ethics Principles are statements expressing in general terms the ethical standards that professionals should adhere to in their professional activities. The comments following each Principle further explain the intent of the Principle. The Principles are aspirational and are intended to provide guidance for professionals on appropriate and acceptable professional behavior.

FPSB's Code of Ethics Principles reflect professionals' recognition of their responsibilities to clients, colleagues and employers. The Principles guide the performance and activities of anyone involved in the practice of advice; the concept and intent of these Principles are adapted and enforced on professionals by FPSB through rules of professional conduct.

Principle 1 – Client First

Place the client's interests first.

Placing the client's interests first is a hallmark of professionalism, requiring the specialist to act honestly and not place personal gain or advantage before the client's interests.

Principle 2 – Integrity

Provide professional services with integrity.

Integrity requires honesty and candor in all professional matters. Professionals are placed in positions of trust by clients, and the ultimate source of that trust is the specialist's personal integrity. Allowance can be made for legitimate differences of opinion, but integrity cannot co-exist with deceit or subordination of one's principles. Integrity requires the specialist to observe both the letter and the spirit of the Code of Ethics.

Principle 3 – Objectivity

Provide professional services objectively.

Objectivity requires intellectual honesty and impartiality. Regardless of the services delivered or the capacity in which a specialist functions, objectivity requires that professionals ensure the integrity of their work, manage conflicts of interest and exercise sound professional judgment.

Principle 4 – Fairness

Be fair and reasonable in all professional relationships. Disclose and manage conflicts of interest.

Fairness requires providing clients what they are due, owed or should expect from a professional relationship, and includes honesty and disclosure of material conflicts of interest. Fairness involves managing one's own feelings, prejudices and desires to achieve a proper balance of interests. Fairness is treating others in the same manner that you would want to be treated.

Principle 5 – Professionalism

Act in a manner that demonstrates exemplary professional conduct.

Professionalism requires behaving with dignity and showing respect and courtesy to clients, fellow professionals, and others in business-related activities, and complying with appropriate rules, regulations and professional requirements. Professionalism requires the specialist, individually and in cooperation with peers, to enhance and maintain the profession's public image and its ability to serve the public interest.

Principle 6 – Competence

Maintain the abilities, skills and knowledge necessary to provide professional services competently.

Competence requires obtaining and maintaining an adequate level of abilities, skills and knowledge in the provision of professional services. Competence also includes the wisdom to recognize one's own limitations and when consultation with other professionals is appropriate or referral to other professionals necessary. Competence requires the specialist to make a continuing commitment to learning and professional improvement.

Principle 7 – Confidentiality

Protect the confidentiality of all client information.

Confidentiality requires that client information be protected and maintained in such a manner that allows access only to those who are authorized. A relationship of trust and confidence with the client can only be built on the understanding that the client's information will not be disclosed inappropriately.

Principle 8 – Diligence

Provide professional services diligently.

Diligence requires fulfilling professional commitments in a timely and thorough manner and taking due care in delivering professional services.

Appendix D. Frequently Asked Questions

Step 1: Education

1. Am I required to purchase the textbooks?

Yes, all individuals registered with FPSB are required to purchase the textbooks. Your purchase includes access to the interactive courses and questions.

2. May I print or purchase a printed copy of the textbooks?

FPSB does not allow for printing of FPSB textbooks for copyright purposes. Each time you'd like to access the textbooks, please log into your FPSB online platform, MyFPSB*learning*.

3. How long may I remain a candidate?

FPSB recommends a candidate apply for Risk and Estate Planning Specialist Certification as soon as the exam is passed. This converts a candidate to a certificant and obviates the need to renew enrollment as a candidate while other Specialist courses including the Integrated Financial Planning are pursued. After a lapse of three years without passing an exam, however, a candidate would need to re-register with FPSB (and pay the registration fee again). FPSB strongly encourages you to complete the certification in the recommended time frame.

4. I heard about challenge status and self-study. Where can I find information about those?

The Challenge Status and Self Study under legacy pathway were discontinued for anyone who registered after 31 May 2020. In the new program effective June 2020, candidates can pursue Specialist certifications under 'Recognition of Prior Learning' mode and/or 'Self-paced learning' mode to pursue all certifications. The Challenge Pathway is being introduced from August 2022 wherein candidates who have some specified higher qualifications/certifications and a 3-year experience can participate in the FPSB® Integrated Financial Planning course and pass CFP® Exam toward obtaining CFP certification.

Step 2: Exam

5. How shall I register for the examination?

FPSB publishes an Exam Calendar on website for the continuing 3-month period. The first five calendar days in a month are for exam registration. One can pay exam fee within this enrolment window to be eligible for the Risk and Estate Planning Specialist exam scheduled on a Friday appearing within the exam window (from the 19th calendar day to the 25th calendar day) in the same month. The tests are conducted in online-proctored system as well in-person at test centers. In online mode, a candidate can take the test at own device (webcam-enabled Desktop or laptop) from anywhere. The in-person exams are available at designated NSE test centers across India.

6. Is there a possibility to skip the FPSB Risk and Estate Planning Specialist exam on the path to CFP certification?

No, all individuals who wish to pursue CFP certification must also pass all the three exams, i.e. exams for FPSB® Risk and Estate Planning Specialist, FPSB® Investment Planning Specialist, and FPSB® Retirement and Tax Planning

Specialist courses. These Specialist exams can be passed in any order.

7. How was the exam created?

CFP professionals in India and internationally created exam questions, and the FPSB exam panel reviewed the weighting and composition of questions. Each question has been reviewed by multiple CFP professionals in India as a requisite step in exam creation.

8. When can I take the exam?

FPSB conducts exam on four days, one each for the three Specialist exams and one for the CFP® exam. These are conducted from the 19th calendar day to the 25th calendar day in the month except on Saturdays, Sundays and specified Holidays. At any given time, FPSB publishes on the website an Exam Calendar for the three subsequent months. Candidates may sign up to take the exam only after they have completed the education requirement for their chosen education mode:

- Self-paced learning: Passing both Module tests in *MyFPSBlearning*
- Instructor-led learning: FPSB-Authorized Education Provider has determined pass/fail for candidates and notified FPSB
- Recognition of prior learning: FPSB grants recognition upon approval of the submitted evidence

9. What resources may be available to study for the exam?

FPSB encourages candidates to study the learning objectives and knowledge items in the FPSB® Risk and Estate Planning Specialist Competency Profile; the exam blueprint; and the questions in *MyFPSBlearning*.

10. When will I know my score on the exam?

FPSB notifies the pass/fail metric toward results of exams in each candidate's LMS account by the close of the calendar month. For failing candidates, the course is 'assigned' to retake the exam, while passing candidate find the course as 'attended'.

11. Is there a limit to the number of times I may take the FPSB exam?

There is no limit to the number of times you may take the exam. You may only take the FPSB® Risk and Estate Planning Specialist exam once in the designated exam window each month.

12. Why do I need to answer the 10 questions on the exam that are not scored?

FPSB works to constantly improve its exams. In order to accomplish this, FPSB needs to pretest some questions before they become a part of the exam. This requires FPSB to gather responses from candidates. These 10 questions are randomly distributed throughout your exam, so you will not know which questions are being pretested and which count toward your score. Therefore, you should assume that all questions count and answer every question with the same concern for your score.

Step 3: Ethics

13. What are steps to complete the Ethics course?

This is an online ethics course in the FPSB online portal. You must ideally pass the Ethics course before beginning studies so that it does not hamper your exam scheduling when due.

Step 4: Certification

14. How long does the process take?

This depends on the individual and different factors such as industry experience, time to prepare, familiarity and propensity to take exams (in general), and the extent of studying before the exam. Typically, preparations require 8-12 weeks of study for the FPSB® Risk and Estate Planning Specialist exam.

15. How long is certification valid for?

The certification is valid for one year. An individual may renew certification after completing the 5 Continuing Professional Development (CPD) points and completing the other renewal requirements in the FPSB online platform. However, the CPD requirement stands fulfilled automatically if the candidate is pursuing other Specialist courses or the FPSB® Integrated Financial Planning course.

16. How does this certification validity combine with other FPSB certifications?

Your initial certification is valid for 365 days. Additional course certifications can be earned in that period. All specialist certifications will be benchmarked and renewed on the date of your initial certification. For example, Sajju passes the FPSB Risk and Estate Planning Specialist exam and certifies as such on December 31, 2020, he will renew a year from then. During that year, he may choose to certify as FPSB Risk and Estate Planning Specialist on June 30 and FPSB® Risk and Estate Planning Specialist on September 30. All these certifications will renew on the same date, December 31, 2021 as they are all specialist certifications. CFP certification will reset the renewal date to begin on the date of CFP certification, at which point all specialist certifications earned remain valid and will be marked to this new date.

17. If I pass the exam, may I use the marks?

No, you must apply for and obtain the relevant certification for your eligibility to use the marks.

Other Questions

18. I work in a firm with a lot of colleagues who want to pursue FPSB's certifications. We're speaking with the corporate training department.

How does this work for us?

FPSB encourages your employer to contact us. You may individually take this as a self-paced training, and may want to have a corporate trainer in your HR or training department provide coaching. Alternatively, your employer may want an FPSB-Authorized Education Provider to teach the course under the instructor-led mode.

19. I registered before 1 June 2020, and would like to become an FPSB Risk and Estate Planning Specialist. How may I do that?

FPSB provided a transition mechanism from April 2021 to December 2021 for those who registered prior to 1 June 2020 so that they migrate to the New Program and appear in the remaining Specialist courses and the FPSB® Integrated Financial Planning course to pursue CFP^{CM} certification. Their individual exams cleared in the old curriculum were recognized toward eligibility to apply for the relevant Specialist certification/s. Candidates who did not apply for the said transition to the New Program have their earlier passed exams in legacy program as invalid. They may register afresh in the New Program to pursue individual Specialist certification and CFP certification.

20. I'd like to learn about the other certifications. How do I do that?

You may visit <https://india.fpsb.org/students/> to learn more about the other certifications.

21. What minimum education qualification is applicable for obtaining FPSB® Risk and Estate Planning Specialist certification and CFP^{CM} certification?

While a candidate who passes FPSB® Risk and Estate Planning Specialist exam is eligible for this Specialist certification basis HSC/12th Pass qualification (subject to meeting other eligibility criteria for Specialist certification), a graduate degree from a University Grants Commission (UGC) recognized University in India, or an equivalent degree program from a recognized University outside India, is required at the time of applying for CFP^{CM} certification.

22. I have a different query. Who should I contact?

You may write to fpsb.india@fpsb.org.
